CONVR 2019

13-15 NOV

**The 19th International Conference on
Construction Applications
of Virtual Reality**

www.CONVR2019.com

**"Enabling digital technologies to sustain
construction growth and efficiency"**

CONFERENCE OBJECTIVE

CONVR 2019 will bring together AEC researchers and practitioners from around the globe to report on and exchange the latest development, ideas and applications stemming from innovative research activities in the area of Virtual Reality, Augmented Reality, and Building Information Modeling. The objective of the conference is to report on ideas, improvements, and applications of innovative international research activities in the VR, AR and BIM fields and discuss strategies for the future development of research perspectives in these fields.

CONFERENCE THEMES

Stream 1: AR-VR
Stream 2: Sensing and AI
Stream 3: BIM and GIS
Stream 4: Energy Informatics and Visualisation
Stream 5: Collaboration and Design Support Systems
Stream 6: Knowledge and Theory Frameworks
Stream 7: Serious Games and Wearables

Main Speakers

Prof. Nashwan Dawood
Teesside University, UK

Prof. Raymond Issa
University of Florida

Dr.-Ing. Racha Chahrour
BIM Project Manager
HOCHTIEF ViCon

Prof. Nobuyoshi Yabuki
Osaka University

Dr. Jack Cheng
Hong Kong University of
Science and Technology

Dr. Farzad Rahimian
Teesside University

Registration

Registration for international participants	USD \$550
Partner / Spouse Registration Attendance to tea/coffee and lunch for both days of the conference, conference dinner (13th-15th November 2019)	USD \$150
Registration for local Faculty and Students (Thailand, Myanmar, Cambodia, Laos, Vietnam)	USD \$250
PhD Student Registration (All) (Maximum 1 paper can be associated with this registration)	USD \$250
Industry Seminar Participation (Day 1 only)	USD \$100

Industry Seminar aims to provide experience of BIM implementation in several country. Several representative from US, UK, Japan, Hong Kong, and Thailand will share experience and discussion on issues related to BIM implementation.
